

Library Book

Each week all children take home a library book. In our school library we have a wide selection of fiction and non-fiction texts. The texts are non-decodable.

High Interest

High Interest texts, identified by our children in order to develop reading for pleasure, have been 'Lexile' scored to create reading ages for each text. Children in KS2 take fortnightly 'Lexile' assessments to provide accurate texts to read. Texts are taken home weekly.

Reading opportunities

Reading Across The Curriculum

Children across school have opportunities to access topic texts to supplement learning through the CUSP curriculum. All curriculum books are assessed for a reading age using the Lexile website, which informs the class teacher whether the whole text is appropriate for their year group or specific sections.

Read, Write, Inc

Each week all children in KS1 take home a decodable Read, Write, Inc book bag book or non-fiction book bag book. Children in KS2 who take part in Fresh Start interventions take home a RWI book. The text matches current Read, Write, Inc classroom lessons.

Book Banded texts

Children in KS2 have access to non-decodable book banded texts which are taken home weekly. The book banded texts are cross-referenced to identify the 'Lexile' reading level.
